Rabbit Records Tips

Here are a few suggestions that will help you while filling out your rabbit record.

- 1) Be NEAT!!! Make sure you have an extra blank record so you can rewrite your record if you need to. Your final record should have no “White-out” or mistakes on it.
- 2) Double check all your math and spelling. Make sure any mistakes have been corrected before your final copy.
- 3) Make sure your record is accurate. If at the end of your record year you said you have 4 rabbits make sure the record says where they came from. Did you start your project year with them? Did you purchase them during the year? Did you breed them? They can’t just appear at the end, they need to be listed somewhere else also.
- 4) Make sure your receipts are attached!
- 5) Make sure you’ve filled out the sample pedigree at the end or attached a real pedigree you filled out.
- 6) Don’t leave blank spaces. If it does not apply to you write N/A. If you leave it blank it looks like you just forgot to do it.
- 7) Make sure your final figures on pages 11 & 12 are coming from other places on your record and are accurate. Also circle or re-write profit or loss.

Hope this information helps you to fill out your best record yet. Happy showing!
